

BILLIONS™ BLR-699 TiO₂ TDS

BILLIONS™ BLR-891 TiO₂ is a rutile titanium dioxide pigment, produced by the sulfate process, and designed to be suitable across a range of coatings and printing ink applications. BLR-699 pigment has excellent all-round optical performance and is quickly dispersed in both water and solvent-based formulations. Its zirconia and alumina surface treatment provides it with excellent weathering performance, meaning that it has the flexibility of being suitable for both exterior and interior applications.

Recommend Applications

Interior and Exterior architectural coatings

Industrial coatings

Printing inks

Typical Properties

Parameter	Value	Test method
TiO ₂ content	94%	XRF
Inorganic coating	Alumina, Zirconia	/
Organic treatment	Present	/
Moisture when packed	0.5% max	ISO 787-2
Bulk density (tamped)	1.1g/cm ³	ISO 787-11
Oil absorption	17g/100g	ISO 787-5
PH	7.9	ISO 787-9
Specific gravity	4.1g/cm ³	ISO 787-10
ISO 591 classification	R2	/
Color index	Pigment White 6	/

Safety

Good industrial hygiene practice should be used generation of dust should be avoided. Please refer to the Safety Data Sheet for more information about how this product should be handled.

Food Contact

Customers should seek confirmation of compliance with specific regulations by contacting LB Group.

Storage

This product should not be stored outside or exposed to temperature extremes or to moisture. To ensure optimum performance, it is recommended that the product is used on a first in, first out basis from receipt of shipment.

Packaging
